

## WONTHAGGI GENEALOGY INC.

is very pleased to have Lambis Englezos O.A. as a Guest Speaker.

Lambis has researched the history of the Australian soldiers who were killed July 1916, at Fromelles, France, in the most disastrous battle Australian military has ever endured.

With many soldiers missing, Lambis researched the history of the battle and discovered the bodies of missing soldiers. These men have now been given a Military Burial and their families minds put to rest. Lambis will talk on his research and the subsequent search for the bodies and their identification.

Lambis Englezos
